Have you ever thought about *how you relate to others*?

And finally, do you know *how you relate to what you do*?

These three relationships in life determine the way we are relating to the world we created around us!

Is it joyful and full of pleasure or are you living in the world of “I have to make it”? Are you being accountable for your life working or are you complaining that nobody knows what you are going through? Is it safe to be yourself, fully expressed or are you protecting yourself from all the real and imaginary threats?

In this powerful, educational and fun presentation you will discover how effective you are in relationship to the three main aspects of your life: YOU, OTHERS and WHAT YOU DO. Out of this discovery you will increase your;

•EFFECTIVENESS

- In producing results

- In relationships

•PRODUCTIVITY

- In business / career / job
- In home / hobbies
- In life in general

•PEACE OF MIND
