

To whom it may concern;

As a Business Coaching Client of Primeco Education and Behnam Bakhshandeh, I am ecstatic about the results I'm producing in my work as well as my personal life. I have been in my current line of work since 1996. Before working with Behnam my business was ok. I had a regular flow of clients; however, it seemed like I had very little consistency with my income. Frankly, it was somewhat of a mystery to me - and the inconsistency was extremely stressful.

One of my complaints used to be that I was either (a) always working & had no time to travel, scuba dive, etc. or (b) my income was too unstable for me to take a block of time off. Within a month of my first coaching session, I had a new relationship to my business and a whole new level of results.

My income for 2002 is going to be 4 times more than my highest annual income before my work with Behnam. By the way, that's with taking 4 months off in the middle of the year! Even with that result, what's made the biggest difference has been the consistency I've developed with my business. I'm relaxed, I love my work and I'm no longer worried about being able to maintain and now expand my business.

I am focused, have a whole new level of peace and confidence, and am in action (effectively!). This new level of performance has also created extra time for me to do things I love to do. Over the past year, we've taken 3 one-week vacations and we have a 4th vacation scheduled.

When I hired Primeco, I thought I had high expectations for the results I wanted to produce out of the business coaching. They have exceeded every one of my expectations. I've produced so much more than I ever dreamed possible - in every area of my life AND with balance in my life for the first time!

I highly recommend Primeco Consulting for any area you are interested in working on. You will get so much more than you pay for.
