

Dear Behnam:

This letter represents a couple of things; a letter of recommendation to any company or person that is interested in utilizing Primeco Education and your work as a service as well as acknowledgment for a job well done!

I wanted to take a minute and acknowledge the work that you have done with our company! Although, we are a thriving enterprise as well as a training company we know the value of bringing in other industry experts! We have been on a huge growth path for the past 7 years and with the kind of growth we were experiencing many challenges and obstacles.

You and Primeco Education supported us in putting a solid business plan together for the next 1, 5 & 10 years! We have a solid plan of action with milestones, targets and accountabilities! Sometimes the CEO of a company needs to have a coach and an accountability partner, thank you for being that for myself as well as the President of our company.

I personally have a better sense of how to manage the growth of our company as well as the staff! Thank your for your leadership and dedication to *Salon Training International* and our sister corporation *Your Beauty Network*.

Please do not hesitate to call me for references or recommendations for your services.

Yours in partnership,

Susie Fields
CEO
Salon Training International
