

POWER & effectiveness

A TWO-DAY COURSE DESIGNED TO ACCELERATE YOUR JOURNEY TOWARD A MORE PRODUCTIVE, FULFILLING, PURPOSEFUL LIFE

Prerequisite: Completion of the "Conspiracy for Greatness" Course

Are you interested in enjoying a higher level of productivity?

How about having more time for yourself, your family, your friends or your career?

Would you like to know how to remain "present" in any situation and produce fulfilling results, even in the face of upsets?

We can either live by our To-Do list, or we can live from our Vision.

When we're living from our To-Do list, we're merely getting by, trudging through another day and going through the motions. Not very inspirational, is it? But there is another way to live.

We can live by our Vision! Living by our Vision means creating an action plan based on the life vision that excites us, inspires us, and compels us forward. Each one of us has a passion for life, even if we don't yet know what it looks like, or how to access it.

When we hear the word "Discipline", we assume it means employing methods that are difficult, serious or too challenging — anything but fun! However, when we adopt discipline into

our Vision, running our lives requires a lot less effort — and can be lots of fun!

Do you struggle to follow your schedule? Is your time consumed by paperwork and to-do lists? Do you start projects without finishing them? In this powerful two-day course:

- We will teach you how to develop your focus and mindset, and how to behave effectively in any challenging situation.
- We will show you how you can shift your attention from yourself, your concerns and your upsets to your values, vision and goals.
- We will work with you to invent your action plan based on your "Life Vision" and put it into practice.
- We'll show you how to liberate yourself from

your current perception of Time Management, Discipline & Schedule so these misconceptions will no longer prevent you from achieving your personal and professional goals.
