

Dear Behnam,

On behalf of Elbanna Factory Distributors, Inc., we would like to thank you for the extraordinary results that you have helped us achieve. As a certified small business as well as a family-owned business in the State of California, we currently represent a large number of manufacturers nationwide with their products in the industrial, safety, and medical equipment arenas. In our eleven-year history, we take pride that we have reached \$4.2 million in annual sales.

Today we truly feel that our success was caused by our strong determination and our commitment to succeed. As a result of your work, our company has created a vision plan for our enterprise for the next ten years. With this vision, our executive body has expanded to include a biomedical engineer, a cardiothoracic surgeon, an international business consultant /2nd-year law student, and a certified public accountant to our pre-existing team.

With our current status as individuals, we have no doubts that we will succeed in life. Today, as one united committed group, we know that we will create an empire. Thank you for discovering us, and we look forward to continuing working with you.

Best regards,

Rania Elbanna
General Manager
